

TAKING THE BULL BY THE HORNS

UTAH AND THE UPCOMING TSUNAMI OF ALZHEIMER'S DISEASE

SPEAKER: DR. MARIA NORTON, UTAH STATE UNIVERSITY

Dr. Norton has spent the last 16 years leading research projects on aging, memory and Alzheimer's disease. Norton will cover practical and policy tips on healthy aging. She is the principle investigator for the ongoing memory study and lead author or co-author on over 95 refereed journal articles. She has given over 100 presentations at national and international conferences. She is currently leading an Alzheimer's disease preventions study called "Gray Matters" which is pilot tested in Cache County, Utah and another pilot study underway in Rome, Italy.

FAMILY IMPACT SEMINARS

For all legislators, staff, state mental health service care providers, and university faculty. Breakfast will be served at 8 A.M.

The event is free. Breakfast is first come, first served. Please invite others to join you!
